BACKGROUND INFORMATION:

Kevin Carroll has served fourteen of the twenty-six years in his educational career as a chief school administrator. He has been successful in working with fellow professionals to identify strengths and weaknesses in programs, systems, or current practices and creating and implementing plans to affect change towards a positive outcome.

He has come to believe that a child's education is a shared vision that is developed, implemented, and evaluated by parents, educational professionals, community members, and the child. That his job as chief education officer is to recognize the potential in all participants and foster the countless connections that can develop.

Mr. Carroll's dream is that all children will have the opportunity to realize their potential through learning experiences that go beyond the rote.
