

Multiple Measure: How To Use Success Indicators

Your district will benefit from three outstanding tools which:

We know clearly from both research and best practices that culture is key in creating and maintaining high performing schools. Join us in this quick 20 minute overview and learn how your school could benefit from these outstanding tools which provide a database for planning, setting goals and measuring progress.

Attendees will be able to take advantage of a NJASA Member Benefit that makes these tools highly accessible and very affordable. Learn more about it!

About Multiple Measures Protocols:

These assessments have been designed by PLC Associates, Inc., a consultancy specializing in services to schools for over twenty years.

- **The District Performance Scan** measures the internal systems and practices of the district. Data is provided by district and school/area. **Great for measuring culture!**
- **The Community Engagement Survey** is a valuable tool for assessing the perception and satisfaction levels of residents and taxpayers. **Builds community support!**
- **The Student Voice** provides an indicator of student views and their insights on school structure, instruction, and the teaching/learning processes. **Promote student involvement!**

NJASA Receives Special Rates and Member Benefits
